

PRODUCT DATA SHEET

RABBIT MUSCLE ACETONE POWDER

Product Codes

41995-1

41995-2

Pack size:

1 g

10 g

Description:

Skeletal muscle is collected from young healthy rabbits (New Zealand White or Californian, 8 – 12 weeks of age, either sex and fasted) within 6 hours of slaughter and frozen at or below -10 °C. Muscle is further processed using a combination of standard industry protocols with in-house modifications.

Physical State:

Off white buff colored dry powder

Testing:

Moisture: Report result

Packaging, shipping/storage:

Packaging:

Glass jars

Storage Temperature:

-20 °C or below

Shipping Conditions:

Dry ice

Expiration:

Product quality is guaranteed to meet Pel-Freez Biologicals' specifications for 1 year from the date of receipt by the customer as long as the product is stored in accordance with the indicated storage conditions.

Application Notes: Reportedly useful for protein purification such as actin, myosin, and troponin.
